Normeca AS International:

Mobile Hospitals & Clinics
Semipermanent Hospital & Clinics
Accommodation & Office Camps
Disaster Management
Today Normeca has become a disaster expert. Partly in cooperation with different NGOs and Governments around the world, amongst them the Japanese Red Cross, the Ministry of Health in Cuba, MSF, with more Normeca has delivered mobile and/or semi permanent hospitals to disaster and/or war areas in countries like Afghanistan, Albania, Kosovo, Pakistan, India, Thailand, Japan, Philippines, Haiti, Chile, Iran, Jordan, Indonesia and many more countries.
The company’s aim has changed substantially during the last years. Today its aim can be divided into categories as follows:

- To export mobile- and semi permanent turnkey hospitals, primarily to the world-wide “defence & emergency relief” markets.
- The company’s aim is to be a leader in the world within storing mobile hospital and mobile clinics on behalf of GO and NGO.
- To export ambulances, ambulance boats and floating hospitals and clinics.
- To provide complete management and administration program related to ambulance, hospital and clinic deliveries.
- To sell medical equipment and disposables to the health care sector in Norway. Primary areas are anaesthesia, ICU, CCU, emergency areas and the operating theatre.
- To develop www.medclub.no as the leader of web shop in the field of medical equipment and disposables to doctor’s office, nursing home, private health centres, etc. in Norway, Sweden and Denmark.
Complete solutions of turn-key floating, mobile and semi permanent hospitals, clinics and forensic medicine units in various designs and materials represents the line of NORMECA’s primary products today.

**Mobile Hospitals and Clinics based in:**

- Tents
- Containers
- Flat pack containers
- Quick shelters
- Trailers
- Ships
- Existing buildings
- Or combinations

The Complete Solution, the 100-10 Surgical Supply Kit is designed to cover all the requirements for medical disposables in the treatment of 100 surgical inpatients for 10 days, including surgical operations.
Product Portfolio

Tents
Normeca AS delivers everything within high pressure inflatable tents and frame tents including all accessories like NBC protection, Sunscreen, lightening, compressors, AC and heaters.
Expandable and non-expandable medical containers

Normeca AS can deliver quick deployable expandable and non-expandable shelters with a rapid assembly solution. The Normeca shelters can be interconnected and detached as needed and featuring a modular construction system allowing the structures to be expanded as required. Our expandable range is based on the standard ISO 20´shipping container, and these expandable shelters can be tailored to meet the customers’ demands.

Example of specialized shelters:
- Operating Theatre
- ICU
- Sterilization
- Dental
- Hospital Wards
- Laboratories
- Laundries
- Kitchen
- Command post
Flat pack containers
Modular prefabricated hospital, accommodation and other buildings that can be designed with flexible dimensions for the demands of the client. Each unit can be combined horizontally or vertically and dimensions can be altered for transport. During transportation four containers makes one 20” container making shipping easier and at a lower cost.

The units and layouts can be tailor made according to individual customer needs and specifications.
Product Portfolio

**MultiSpace Trailers**

Quick deployable and expandable and non-expandable MultiSpace trailers with a rapid assembly solution. The trailers can be interconnected and detached as needed. The trailers can be delivered in all kinds of length with or without expandable sides from 1 to 2 meters on one or both sides.

The MultiSpace trailer is suited for use as:
- Hospital
- Surgical unit
- Clinics
- Dental clinic
- Mammography
- MR
- CT
- Isolation
- ER Unit

- With many more
Experience from the field

Earthquake in India January 2001 - Two clinics delivered within 17 hours
20 tons of equipment delivered within 5 days. More than 100 m3 with equipment
India

GUJARAT—right after the earthquake in January, 2001
About 13.00 o’clock a.m. on the same day as the earthquake occurred, NORMECA A/S received the order from the Japanese Red Cross Society (JRCS).

The day after, at 06.00 o’clock in the morning all the equipment was made ready for transportation by air from Oslo Airport, Gardermoen.
Experience from the field

Afghanistan
BAGLAN-province after the earth quake in Mars 2002.
Also this delivery was executed for The Japanese Red Cross Society.
The assumptions for this delivery were somewhat different, since we had about two weeks at our disposal for making all necessary preparations.
Experience from the field

Thailand and Indonesia
After the tsunami 26.12.2004 Normeca AS delivered a complete field hospital to Sumatra by the Japanese Red Cross. The company also build up the Site 2 in Mai Kao, Phuket, Thailand for identification of dead bodies. Normeca AS delivered this forensic medicine centre as a turnkey, and the company had the total responsibility for running the site, including, among others, logistic, catering, security and maintenance for 13 months.

From jungle to Forensic Medicine Centre in 10 days

Thai Tsunami Victims Identification Center

Thursday 20 January 2005
From jungle to Forensic Medicine Centre in 10 days
Normeca was the only organization/company that was honored by Thai Police for the work in Phuket.
Experience from the field

Cuba

In October 2005 a heavy earth quake hit several areas in Pakistan. Rapid response is crucial, Normeca AS got an inquiry from Cuba’s authorities for supplying of a field hospital based on tents that should be run by a Cuban medical team. The hospital was delivered in Muzaffarabad.
Pakistan
During the first months of 2006 Normeca AS delivered a field hospital in Hattian Bala, Pakistan, for Medecins Sans Frontieres based on flat pack containers. This hospital included operating theatre, ICU, doctors' office, pharmacy, laboratory, blood bank, shower and toilets. The delivery was complete with generator, heating and cooling plants, water purifying system, etc.
Experience from the field

**Sudan**
In September 2006, Normeca AS signed its largest contract ever with the Government of Southern Sudan (GOSS), Ministry of Health, to dramatically improve the health care situation for the people of Southern Sudan.

In addition, Normeca AS signed a 5 year management and operations agreement covering all hospitals and clinics. Unfortunately the project has stopped because of lack of funds.
The location –

Kapoeta, Eastern Equatorial, Southern Sudan
It was approx. 1,800 km from Mombasa to Kapoeta and around 1,000 km of the road hold very low standard. Normeca brought in around 4,000 tons of equipment by road from Mombasa to the site in Kapoeta, southern Sudan.
